### GARY CORBY with David Hall from Abbey's talking about The Pericles Commission (\$24.95)

You set your novel  
in the somewhat  
neglected period of

Classical Athens, not Ancient Rome or Egypt. Was  
this a conscious decision? And why a crime novel?

Classical Athens was one of the most exciting periods of human history. These people started Western civilization; you can't get much more critical than that! They all lived in a period of just 50 years, in a place no larger than a modern town, and they all knew each other.

Also, they killed each other in such interesting ways... and I've always loved puzzle stories, both of the murder mystery kind and the science fiction kind. (In fact, your Galaxy Bookshop was a favourite haunt back in my university days when I could drop in frequently). So when I decided to write a novel, it was the most natural place to set a murder mystery.

In your next novel, Nico visits Themistocles in

the Persian Empire. How far afield do you see  
him travelling?

Nico's adventures will eventually take him around much of the known world. The second book is **The Ionia Sanction**. Ionia was the western coast of what is now Turkey, and part of the Persian Empire. The third book takes place at the Olympics of 460BC.

Nico is definitely going to Egypt. I already have notes for that and a fair idea of the characters. After that, there are so many options: southern Italy was entirely Greek; Carthage was up and running; Marseilles in southern France began as a Greek colony called Massilia.

Readers send me requests for Nico to go to certain places, such as further inside Persia. I'd like to get him to Susa and Babylon. That would certainly be a perilous mission because it's right in the heart of the enemy empire.

I'll keep writing these books as long as people want to read them. There's no shortage of material. The Golden Age of Greece was 50 years packed with tales of adventure, war, conspiracy, lust, love, corruption, power politics, assassination - you name it!

You use a mix of real and fictional characters

and events. Will this continue in future books?

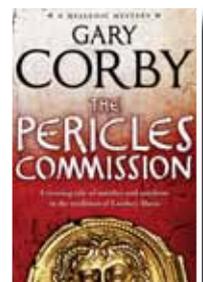

Absolutely. Luckily for me, because the period is largely untapped, there are huge wells of history from which to turn real events into stories so strange, they read almost like fantasy.

I'm somewhat driven by when things actually happened. The years 460 to 461 BC were among the most momentous in history and the first three books take place in quick succession in less than 12 months of story time. I'll have to slow the pace soon though, otherwise at three books per story year, I'll need 150 books to get my heroes through the Golden Age!

Did you do any specific research  
for this book, or just draw on  
your existing knowledge of  
ancient Greece?

I do massive amounts of research. I once spent three hours proving the ancient Greeks had garlic, just so I could write one line of text!

Because I use a large number of historical people in the stories, I study their lives in minute detail to make sure I don't break real history. I'm very keen on historical accuracy. (continued page 14)

### Interview with Gary Corby (continued from page 7)

Original sources are crucial. I read a lot of classics written in the 5th century BC, which may sound ultra-nerdy, but is really fascinating. Herodotus was the father of history and was researching his great work, which we know as **The Histories**, at the very moment Nicolaos was solving murders. So I've picked a very decent time to be writing in! (I can absolutely guarantee Herodotus will appear as a character in a later book).

Being immersed so heavily in the ancient world makes you view the modern world in a very different way. If you think modern politics is tough, try the ancient version – where losers were regularly exiled or killed. Also, the mindset of everyday life was a weird combination of the totally familiar and like something from another planet.

### Can you recommend any non-fiction books for anyone who wants to learn more about Periclean Athens?

All the Greek novels of Mary Renault. They are fiction, not non-fiction, but they're simply the best stories of ancient Greece ever written. I'm quite sure they'll be available at Abbey's!

Other than that, go straight to the horse's mouth - Herodotus and Thucydides. Herodotus is a fine old chatterbox and reads more like a Boys' Own Adventure than the founding document of history and anthropology. Thucydides is full of geopolitics and is better than any modern thriller.

Thanks David for your terrific questions – I've really enjoyed answering them. If anyone's interested, I keep a blog at GaryCorby.com, in which I rattle on about the publishing experience and ancient history.
